

# Anleitung: Farbenfrohe Lesezeichen mit Enkaustik

## Instructions No. 269

Applying wax, removing and scraping away - that is in short words the basic principle of this unique painting technique. At first glance, the painting iron used to work the liquid wax looks like a travel iron. And in fact it takes you on a journey into new worlds of colour

Already the practicing is enormous fun. If you take the time to learn the various basic techniques safely, then all possibilities are open to you for creating your personal works of art.

On these bookmarks different techniques and colours have been combined. The structures intertwine harmoniously and each time result in a fantastic unicum. In addition, relief stickers were used to reserve individual areas. Thus the filigree butterflies remain as white contours in the colourful background a special eye-catcher.
