

# Basic instruction screen printing

Instructions No. 1802

**Silkscreen** is a great technique to print t-shirts, fabrics and cloth

With this technique it is even possible to print in series. Here, **ink** is printed through a tightly woven fabric using a squeegee. The areas that should remain unprinted are covered. For this technique only any one of the following is required Cutter, a screen, Adhesive tape, a Scraper and the printing ink in the desired colour shades.

Marabu textile print screen set, 4 pcs.
