

Designing a child's yardstick with branding

Instructions No. 2007

Difficulty: Beginner

Working time: 8 Hours

Mom, have I grown again? Your child can measure itself against this **yardstick** again and again if it wants to. In addition, we provide you with cute **graphics as a template** in which you can record when your child took its first steps, got its first tooth or what the first word of your treasure was. In the Polaroid-like picture frame you can always stick on the appropriate picture of your child

Not only your child grows, but the bar always grows through further your entries, memories and photos. A great souvenir when your child grows up and a great gift idea for soon-to-be mom and dad.
