

Redesigning planters with edding in no time at all

Instructions No. 723

Simple pots and polystyrene balls can be turned into real eye-catchers in no time at all - simply colour them in with edding® Colour spray and then use an edding® pen to decorate them with your personal message!

The balls are sprayed with the edding spray in the cloister at a distance of 15-25 cm. Then the lettering with our copy template

is transferred to the clay pots and decorative balls with the help of the carbon paper and a pencil. The edding 4000 matt lacquer-Marker follow up.

Must Have

Terracotta pots, Inside-Ø 8 cm, 10 pcs.

6,20 CHF
